

South Valley University (SVU) Sustainability Bulletin 2020/2021

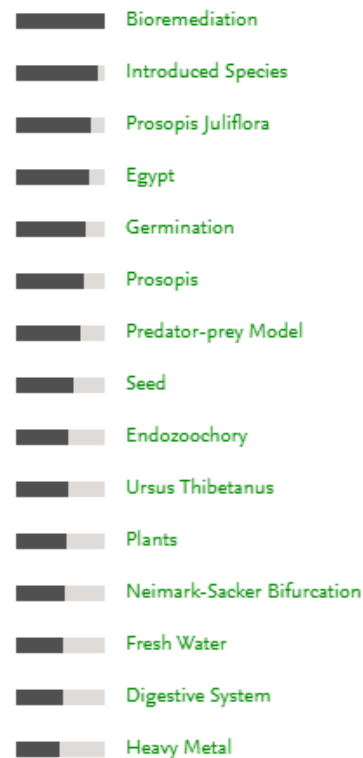

Research on land and ecosystems

Scholar output	FWCI	International collaboration	Citation
26	0.85	21	102

SVU has excellence research output in this goal nationally and globally in the period of 2017 to 2021.

International Collaboration  

Publications co-authored with Institutions in other countries/region

Links to other SDGs

SDG 15 relates to other SDGs since biodiversity and the ecosystem can also be the basis for climate change adaptation and disaster risk reduction strategies (SDG13). Life on the land and life below water (SDG14) are interlinked, and life throughout the ecosystem provides routes out of hunger (SDG2) and poverty (SDG1). Clean water (SDG6) and clean energy (SDG7) are also vital to maintaining life on land.

- SVU aiming to deteriorating environment undermines the livelihoods of millions of people who no longer benefit from reliable sources of food, water and countless other services provided by healthy ecosystems.

SVU strategy

SVU is contribute to sustainably manage forests, combat desertification, halt and reverse land degradation, and halt biodiversity loss.

According to national agenda SVU follow :

- Water discharge guidelines and standards
- Policy on plastic waste reduction
- Policy on hazardous waste disposal
- Land sensitive waste disposal
